

CLEANING PRODUCTS & SAFE USE

Using the right products, in the right way, for the right results.
Safe use protects you, your clients and the environment.

-  **BE SAFE**
-  **WORK SMART**
-  **RESPECT**
-  **DELIVER QUALITY**

We use professional products to achieve high standards of cleanliness. Knowing what products to use, how to use them safely and storing them correctly is essential. Always read labels, follow instructions and never mix products.

REMEMBER

The label tells you how to use it safely.
If you're unsure – ask your manager.

01 OUR PRODUCT SYSTEM

We use a simple, effective product system to ensure consistent results across all environments.

-  High performance
-  Professional quality
-  Safe when used correctly

From homes to offices, schools to hospitals, we use the right product for the job.

02 READ THE LABEL

- Always read the label before use.
- Check the dilution rate.
- Follow the instructions and contact time.
- Be aware of hazards and safety advice.
- Know the first aid measures.

If instructions aren't followed, the product may not work – and it could cause harm.

03 USE THE RIGHT PRODUCT

All Purpose Cleaner
For general cleaning of all surfaces

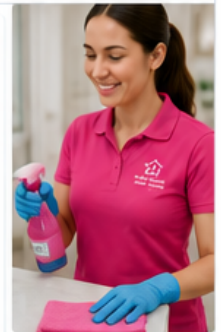

Bathroom Cleaner
For toilets, sinks, tiles and showers

Degreaser
For kitchens and greasy areas

Glass Cleaner
For windows, mirrors and glass

Right product, right job, right results.

04 DILUTE CORRECTLY

- Use the correct dilution rate.
- Too strong can be dangerous.
- Too weak may not clean properly.
- Use cold water unless stated otherwise.

Check the label for dilution instructions.

05 NEVER MIX PRODUCTS

Never mix bleach with any other product. It can create dangerous fumes. Use one product at a time.

06 STORE PRODUCTS SAFELY

- Store in original containers.
- Keep lids tightly closed.
- Store out of reach of children.
- Keep in a cool, dry place.
- Follow COSHH instructions.

Check storage areas are clean, tidy and secure.

USED IN MANY DIFFERENT ENVIRONMENTS

DOMESTIC HOMES

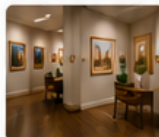

OFFICES

DENTAL PRACTICES

SCHOOLS & NURSERIES

MUSEUMS & GALLERIES

HOTELS

RESTAURANTS

INDUSTRIAL & MANUFACTURING

Different places, same high standards. Always follow site-specific instructions and risk assessments.

KNOWLEDGE CHECK

Circle the correct answer or write your response.

- 1 Why is it important to read the product label?
- 2 What can happen if you mix bleach with other products?
- 3 Name two examples of areas where we use cleaners.
- 4 Why is correct dilution important?
- 5 Where should cleaning products be stored?

TIP OF THE MODULE

Good products and safe use make cleaning easier, results better and environments safer for everyone.

TRAINING RECORD

I confirm that I have received, read and understood the content of Module 3 – Cleaning Products & Safe Use.
